PROFESSIONAL SUMMARY

Software Engineer and full-stack developer with strong expertise in MERN stack, React Native, TypeScript, and RESTful APIs. Skilled in designing scalable backend architectures, optimizing database queries (MongoDB/MySQL), and implementing responsive, user-centric mobile/web applications. Proficient in Data Structures, Algorithms, and Core CS Fundamentals with a strong track record of building production-ready projects.

SKILLS

Languages: JavaScript (ES6+), TypeScript, C++, Go

Frameworks: React.js, Node.js, Express.js, React Native, Bootstrap, Tailwind CSS

Cloud/Databases: MySQL, MongoDB, AWS (Basics)

APIs & Services: JWT, Cloudinary API, RESTful APIs, Multer

IT Constructs: Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Developer Tools: Git, GitHub, VS Code, Postman, Android Studio, Docker

Soft Skills: Communication, Teamwork, Problem Solving, Time Management

PROJECTS

University Resource Portal | MERN Stack | GitHub Repo | Live Demo

Jan 2026 – Feb 2026

- Architected and deployed a full-stack academic platform using MERN stack, categorizing content across 4 hierarchical levels (Course > Branch > Year > Subject).
- Engineered secure OTP-based Admin Authentication with JWT and integrated Cloudinary API with full-featured CRUD Admin console to streamline document management.

YouTube Backend Clone | JavaScript, Node.js, Express.js, MongoDB, JWT | GitHub Repo

Aug 2024 – Oct 2024

- Designed and implemented a RESTful API architecture managing full CRUD operations for users, video pipelines, playlists, and interactive comments.
- Integrated Multer with Cloudinary API for secure media uploads, optimized MongoDB aggregations for view metrics, and secured session management using JWT and bcrypt.

Bookworm App | React Native (Expo), Node.js, Express.js, MongoDB | GitHub Repo

Apr 2026 – May 2026

- Engineered a full-stack mobile book-sharing app with Expo-based navigation, user authentication, and a social feed where users publish interactive book posts.
- Implemented Multer and Cloudinary API for media uploads, built permission-based CRUD operations, and optimized MongoDB sorting for low-latency feed fetching.

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University, Lucknow

2023 – 2027

Bachelor of Technology in Civil Engineering | CGPA: 7/10

Inter Science College, Jharkhand

2022

Class XII, JAC Board | Percentage: 81%

DAV (Dayanand Anglo-Vedic) Public School, Jharkhand

2020

Class X, CBSE Board | Percentage: 75%

EXPERIENCE

Team Lead – Virtual Lab Simulation / Ebootathon (IIT Kanpur Bootcamp)

Jan 2025 – Feb 2025

- Led a 5-member engineering team to design and build an interactive Virtual Lab Simulation platform for online practical demonstrations.

POSITION OF RESPONSIBILITY

Student Member, Training & Placement Cell

Aug 2025 – Aug 2026

- Coordinated on-campus recruitment drives for 15+ companies and assisted 250+ engineering students in interview preparation and placement processes.

ACHIEVEMENTS

- Secured 3rd Rank in Inter-College Hackathon and selected in Top 20 teams at Smart India Hackathon
